

CALIFORNIA IS FOR EVERYONE

Key Findings

For First Year

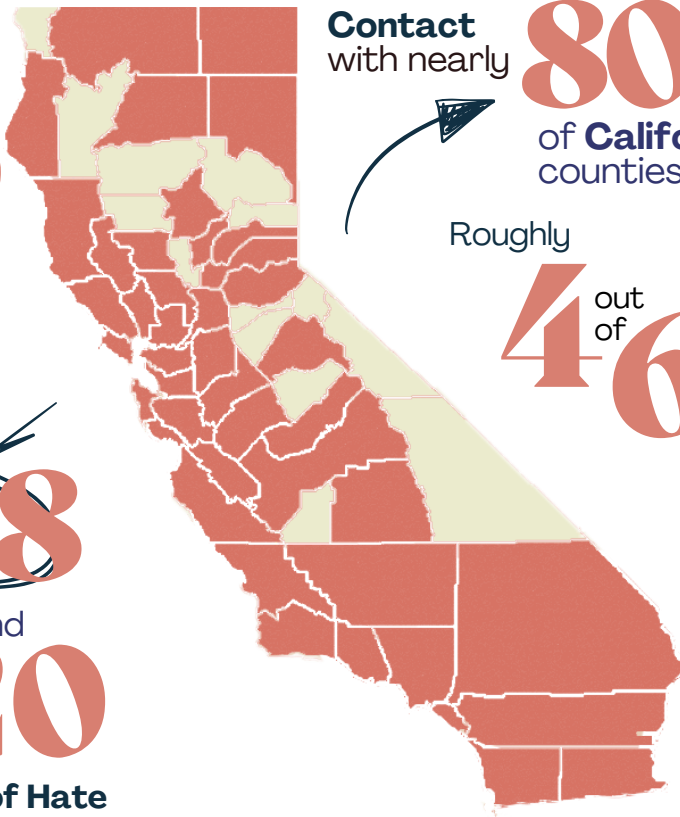

California vs Hate's data represents all acts of hate reported to the hotline; this includes hate crimes and hate incidents. A hate crime is a legal definition, referring to criminal acts committed, in whole or in part, because of one or more actual or perceived protected characteristics. A hate incident is a more expansive definition, including acts that may not be criminal in nature, but are motivated by bias against another person's actual or perceived identity(ies), characteristics, and/or because that person is a part of a protected group. While reports to CA vs Hate serve as an important indicator, the data should not be treated as being representative of all acts of hate in California.

In the one year since its inception, **CA vs Hate** has seen:

60,500
Website Visits

2,118
Contacts and
1,020
Actual Reports of Hate
